A modern proverb says that “No exhaustive knowledge without collegiate education”. The need for starting a college for women in Vaniyambadi arose in the year 1994. Social Science affirms that a woman’s place in society marks the level of civilization.

This made the Jain Philanthropists of Vellore District feel the need for women education in the rural background such as the locale of our college. Our college caters to the needs of the students, who are unable to continue their studies because of the distance they have to commute to go for higher education. Further, at the time of starting the college, there was no college for women, in a vicinity of 60Kms.

The focus of the college is to impart quality education and to inculcate moral and ethical values in the future citizens.

The college emblem constitutes a Book, a Lotus and a Lamp. The Book stands for Knowledge, the Lotus for Right Conduct, and the glowing Lamp for Faith. All these constitute the motto of the college as “EMPOWERMENT EXCELLENCE”.

Spiritual Development

According to Vedanta, human personality has a third dimension known as the 'Atman', which is different from the mind and body, and which is a part of reflection of the Supreme Reality known as 'Brahman'. Owing to ignorance, the atman is not directly experienced by ordinary people. This truth has been expressed by Swami Vivekananda through the phrase 'Potential divinity of the soul'. Through spiritual disciplines and unselfish work, Ignorance gets reduced and the divinity of the soul manifests itself more and more.

Spiritual development is a process of spiritual unfoldment. Every activity, one's whole life, can be looked upon as a process of manifestation of divinity of the soul. Physical development and mental development is not an end in them, but are only means for spiritual unfoldment, for the manifestation of divinity of the soul. This understanding spiritualizes, divinizes, not only one's whole life but also one's relationships with others. Holistic view of human development is an essential part of Integral Education. Education is intrinsically a phenomenon of enkindling the potential spark of perfection enshrined in every human being.

As a process, here, at MKJC we educate the students, aiming at arousing, nurturing and shaping the sprouting personality to its perfection. The staff and the students follow the spiritual pathway through

- Meditation and yoga.
- Following strict vegetarianism
- Well - disciplined behaviour
- Respect towards elders
- Non-Violence
- Spiritual talks and meetings conducted by Gurujis
- Special meeting organized by Karuna Club, which emphasizes on animal / human Welfare.
- The humane and empathetic attitude can be seen in our students through their whole-hearted donations to orphanages / destitute homes through Karuna Club.
