Objective of the Programme	<ul style="list-style-type: none">• Encourage responsible fire management• Promote community participation in fire prevention• Facilitate the adoption of safe practices		
Participants Count	Students :75 Staff : 02		

Summary

On March 5, 2025, the PG and Research Department of Biotechnology, Marudhar Kesari Jain College for Women, Vaniyambadi, organized an extension activity in Nayakaneri village. III BSc and II MSc Biotechnology students participated, the students actively engaged with the local community, conducting awareness sessions on forest fire prevention. These sessions aimed to educate residents about the causes and consequences of forest fires, and to provide practical strategies for mitigation.

Furthermore, Mr. Babu shared his expertise on local flora, educating the students on various tree species and their ecological significance within the forest environment. This provided valuable hands-on learning and enhanced the students' understanding of forest ecosystems.

The program concluded with a strong emphasis on environmental sustainability, promoting the "Avoid Plastic and Use Manjapai" (cloth bag) initiative. This initiative aimed to encourage the reduction of plastic waste and the adoption of eco-friendly alternatives.

Outcome of the Programme

The students came to know about

1. Promote community participation in fire prevention
2. Facilitate the adoption of safe practices
3. Protect local ecosystems
