REPORT

MARUDHAR KESARI JAIN COLLEGE FOR WOMEN (AUTONOMOUS), VANITYAMBADI

Activity Report

Title	Modular Furniture Design and Build		
Organized By	Department of Interior Design and Decor		
Type of Activity	Workshop		
Level	Institutional		
Date	25.08.2025	Time	10.30 AM to 12.45PM
Venue	Sri Arihanth Block	Mode	Offline
Resource Person Details	1. Mr.Antony Arul Assistant Manager (Stakeholder Engagement) Furniture & Fittings Skill Council, Chennai 2. Mr.Anbukumar Director EUC Technowood, Chennai		
Objective of the Programme	• Introduce fundamentals of modular furniture design—adaptability, standardization, and space efficiency. • Promote sustainable, recyclable materials and design for longevity. • Provide hands-on experience in materials, joinery, and prototyping. • Encourage innovative problem-solving for functional and space-saving solutions		
Internal Participants Count	Students: 36 Faculty: 7	External Participants Count	Students: Nil Faculty: Nil

Summary

The Department of Interior Design and Décor successfully organized a one-day workshop on “Modular Furniture Design and Build” on 25.08.2025 with the enthusiastic participation of 36 students. The workshop aimed to bridge the gap between theoretical learning and practical application by introducing students to the fundamentals and hands-on aspects of modular furniture design and construction.

The sessions were conducted by industry experts who shared their knowledge and experience about contemporary practices, design trends, and innovations in the field of modular furniture. Students were introduced to the core principles of modular design, such as adaptability, ease of assembly, standardization, flexibility, and space efficiency. Emphasis was placed on the use of sustainable materials, designing for disassembly, and promoting longevity in furniture systems to align with eco-friendly and future-ready design practices.

Participants were guided through practical demonstrations that highlighted material selection, joinery techniques, and methods of combining modules for both functional and aesthetic flexibility. The hands-on component of the workshop allowed students to prototype their ideas, transforming classroom knowledge into practical design solutions. This interactive approach

not only developed their technical skills but also encouraged creative problem-solving for real-world challenges such as space-saving solutions and multifunctional furniture design.

By the end of the workshop, students gained valuable insights into industry standards, professional practices, and innovative approaches in modular furniture systems.

Outcome of the Training

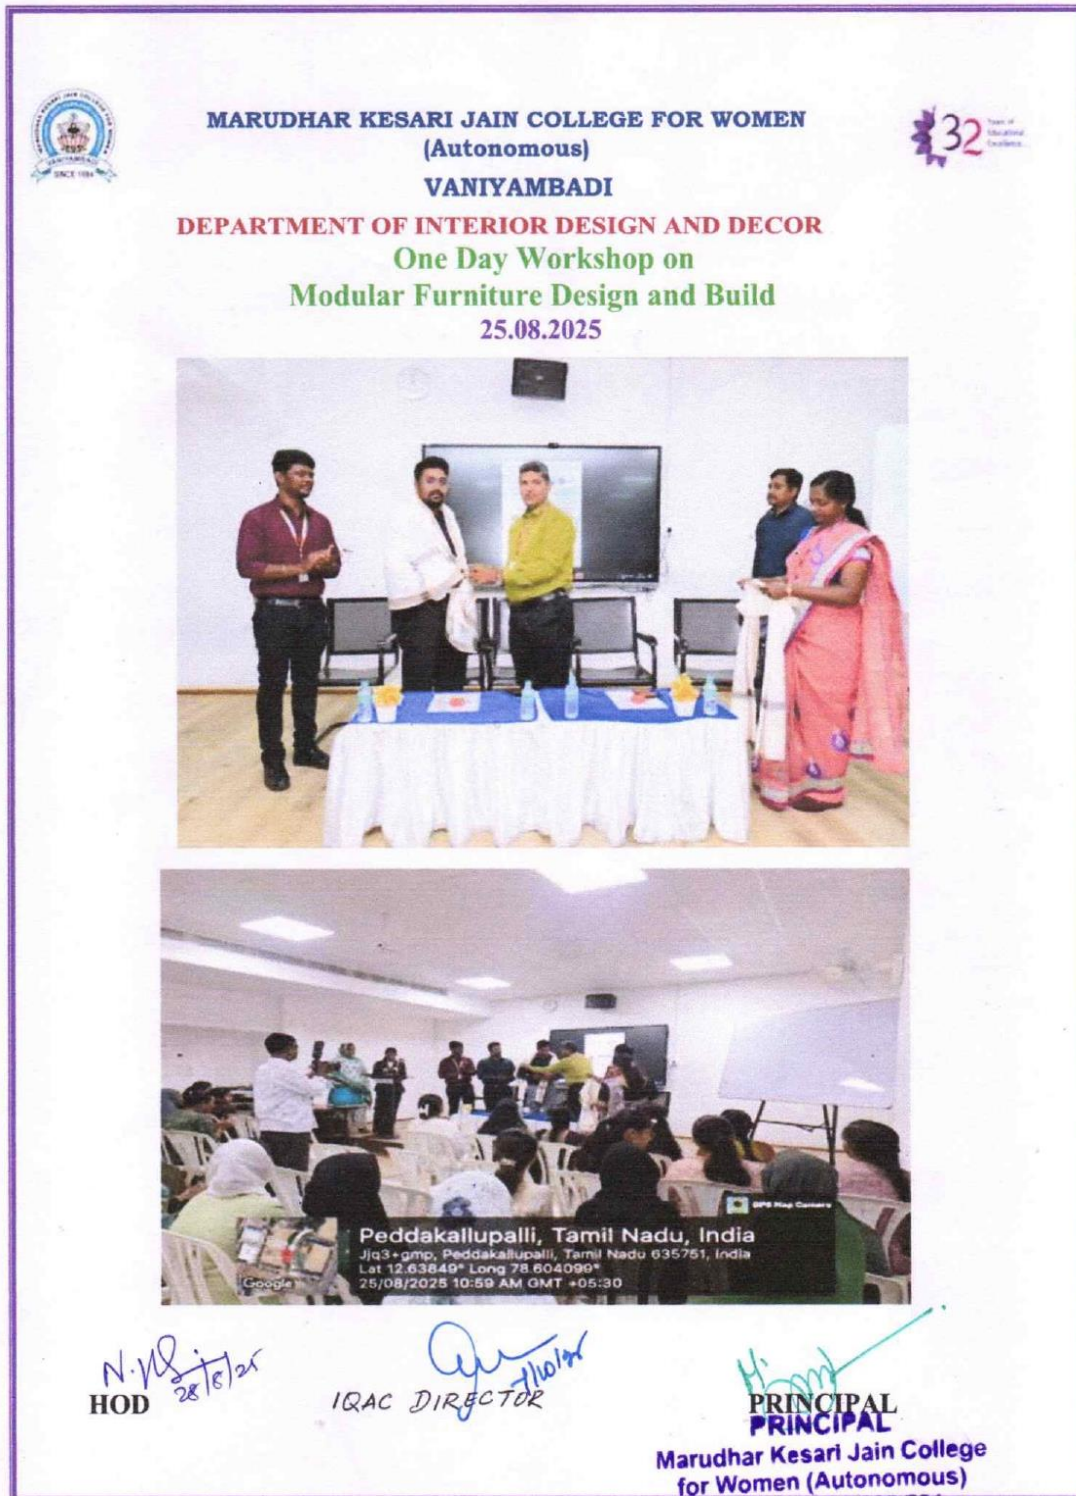

1. Develop practical skills in design and construction of modular furniture.
2. Foster understanding of modular design principles, including sustainability and efficient use of space.
3. Encourage teamwork, innovation, and application of theoretical concepts in real-world design scenarios.
4. Provide industry-relevant exposure and practical knowledge for career readiness.
