Activity Report

Name of the Department/Club /Association/Cell	Placement and Career Guidance Cell
Title of the Programme/ Event	Off Campus Drive Molecular Connections, Bangalore.
Association With	Molecular Connections, Bangalore.
Alignment of this Programme with	SDGs ☐ Viksit Bharat 2047 ☐ State/National Schemes ☐ NEP 2020 ☐ MOU activity ☐ Others ☐
Mode	Offline
Type of Activity	Off-Campus Drive
Level	Institutional
Date	05.03.2026
Venue	Molecular Connections, Bangalore
Resource Person Details	Mr. Prasath N, HR, Molecular Connections, Bangalore.

Objectives

- To provide placement opportunities for Chemistry students in research-oriented roles.
- To expose students to technical and industry-specific selection processes.
- To enhance subject knowledge and analytical skills required for scientific roles.
- To bridge the gap between academic learning and industry expectations.

Summary Report

The Placement and Career Guidance Cell organized an Off-Campus Drive in association with Molecular Connections Pvt Ltd, Bangalore on 05.03.2026 for Chemistry students. A total of 24 students participated in the drive.

The session began with an introduction by the HR representative, who explained the company profile, nature of work, and expectations for the role of Scientific Analyst. Students were given a clear understanding of the job responsibilities, required skills, and the importance of analytical thinking and subject knowledge for the role.

The recruitment process was conducted in a structured manner, consisting of a Technical Round followed by a Personal Interview. During the technical round, students were assessed on their core subject knowledge, analytical ability, and problem-solving skills. The questions focused on evaluating their understanding of chemistry concepts and their ability to apply theoretical knowledge in practical situations.

Students who qualified in the technical round proceeded to the personal interview stage. In this round, students were evaluated based on their communication skills, confidence, clarity of explanation, and overall suitability for the role. They were encouraged to present their knowledge effectively and respond to questions with logical reasoning.

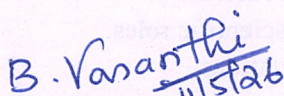

The entire process provided students with valuable exposure to industry-level recruitment practices, particularly in technical and research-oriented roles. It helped them understand employer expectations and the level of preparation required to succeed in such selection processes.

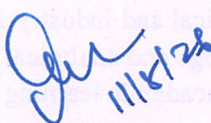

Outcome of the Programme

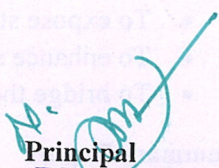

- 149 students gained exposure to a structured corporate campus drive.
- Communication, persuasion, and interpersonal skills were assessed and enhanced.
- Students developed a clear understanding of sales and business development roles.
- Confidence in handling group discussions and interviews improved.
- The programme strengthened employability readiness and industry interaction.
